SUMMARY

Junior Software Engineer specializing in JavaScript and Node.js, with experience building secure REST APIs, implementing JWT authentication, and designing SQL-backed systems. Proven ability through internships and open-source contributions.

SKILLS

- **Languages:** JavaScript, Python, SQL, HTML/CSS
- **Frameworks & Web:** Node.js, Express, Django, Tailwind CSS
- **Databases:** PostgreSQL, MySQL, SQL Server
- **Tools:** Git, GitHub, Docker, Postman

EXPERIENCE

Software Engineer Intern

Hitekology Solutions
March 2026 - Present

- Redesigned and developed multiple client websites for nonprofit organizations using **HTML, JavaScript, and Tailwind CSS**, improving clarity of mission and user engagement.
- Identified and resolved **navigation and UI bugs**, improving usability and overall user experience.
- Led **pull request reviews**, enforcing code quality standards, identifying inconsistencies, and recommending improvements before merge.
- Standardized database content by executing **SQL updates**, improving frontend rendering and consistency of displayed data.
- Contributed to **system design discussions**, proposing scalable architecture (Modular Monolith + Layered Architecture) and setting up project structure for a mobile marketplace application.

Open Source Contribution

Doccano
January 2026

- Improved production API reliability by enforcing **UUID-based resource identifiers**, ensuring consistent and correct HTTP 404 responses.

Software Engineering Trainee — Perpex

Program-based Engineering Internship
July 2025 – October 2025

- Developed **web APIs**, delivering validated CRUD functionality aligned with business requirements.
- Designed **normalized SQL schemas** and managed migrations, ensuring data integrity and maintainable database evolution.
- Implemented **JWT authentication and RBAC authorization**, strengthening application security and controlled access.

PROJECT

Task Manager with Authentication & Role-Based Access (Live Demo)

Node.js, Express, PostgreSQL, JWT Authentication

Live: <https://task-manager-lesego-dhlamini.netlify.app/>

- Built and deployed a full-stack Task Manager with JWT authentication and role-based access for secure task control.
- Developed Node.js + PostgreSQL backend with modular API design structure, password hashing, and protected routes.

EDUCATION

Diploma in Information Technology

Richfield Graduate Institute of Technology • Incomplete • 2023-2025

- Completed all coursework; certification pending due to administrative hold
